

Erratum

Volume 34, Number 1 (1983), in the article “Large Dense Neighbourhoods and Turán’s Theorem,” by J. A. Bondy, pp. 109–111:

The final sentence should read: Then either $G \cong T_r(n)$ or the subgraph induced by the neighbours of v has more than $t_{r-1}(m)$ edges.

The second sentence of the proof of Theorem 2 should begin: Denote by S the vertex set $V(G) \setminus V(T) \dots$. As it stands, the meaning is ambiguous.

I thank N. Alon and I. Hartman for drawing these points to my attention.

J. A. BONDY
